

modular air-conditioners & heat pumps

Enviromax 10

CLIMATE CONTROL UNIT

SINGLE PHASE POWER

- **Position Internally**
- FREE BLOWING
- **Position Externally**
- DUCT UP TO 20 METRES
- **Trouble Free Operation**
- PUMPED CONDENSATE

Air-Conditioning

Heating

Dehumidification

modular air-conditioners & heat pumps

enviromax 10
10kW Air-Conditioning Capacity

The Enviromax 10's flexible design has been proven over 5 years of operational experience, specifically developed for efficient installation, internally or externally and requiring only single phase power. The units also utilise copeland scroll compressor technology with 40 years of manufacturing history.

Specification

Height: 1465mm
Length: 1080mm
Width: 735mm
Weight: 175Kgs
Handling: Fork pockets and easy move castors
Sound Level: 52 dba @ 5 metres
Supply Air Flow: 1,450 Cubic m/hour

Configuration-

Supply Air: Free blow via grill or 2 x 300mm diameter ducts (20m max)
Condenser Air: 2 x 300mm diameter ducts (5m max)

Controller-

Unit mounted or optional 24 Volt remote controller/thermostat. Unit is supplied with integral controller for AirCon, Heating and basic DeHumidification operation.

Optional internal thermostat and controls give ease of operation

Easy handling with integral fork pockets and robust frame

Unit fits through a standard doorway on easy move castors

Performance

10+kW Air-Conditioning capacity*

10kW Heating capacity*

180 ltrs /24hrs Dehumidification
at 20°C DB and 75%RH air on condition

Specifications are based on Enviromax standard test conditions. Nominal* operating condition is 12 to 30°C db ambient operating temperature range, with a 240V/50HZ power supply (output capacity will vary in relation to operating wet bulb temperature and Relative Humidity conditions, higher ambient conditions will increase the running amps).
