Settle, North Yorkshire, BD24 9RH

- Bruciatore dotato di presa snorkel per garantire aria di combustione pulita mediante collegamento con guaina di aspirazione aria all'esterno
 - Il nuovo scambiatore di calore abbinato ai nuovi ventilatori di maggiori prestazioni permettono di ottenere un rendimento termico del 92 ÷ 93%
 - Pre riscaldamento e Post ventilazione camera di combustione
 - Pannelli con pieghe di rinforzo a croce per garantire maggior rigidità e robustezza (SP 110-235)
 - Termostati: FAN per il controllo ventilatore; LIMIT per il controllo del bruciatore; OVERHEATING termostato di sicurezza in caso di surriscaldamento con riarmo manuale.
 - Struttura portante con pannelli rimovibili per il lavaggio interno, anche a macchina appesa
 - Utilizzo esclusivamente di viti e inserti metrici per il fissaggio, no viti autofilettanti
 - Ventilatore protezione (IP 55):
 - molto silenzioso (rumore ≤ 69 db a 2 metri);
 - ad alta prevalenza e prestazioni che garantisce un elevata portata d'aria e pressione statica (500 Pa) per la diffusione omogenea ed a lunga distanza dell'aria calda mediante canalizzazioni o guaine;
 - ventilatore ancorato alla struttura portante mediante robusti longheroni e staffe di fissaggio;
 - serranda regolabile di ripristino aria fresca (SP 110-235);
 - Quadro elettrico di comando (IP 65):
 - collegabile a termostato/umidostato/timer
 - incassato nella parte inferiore
- *Burner is supplied with snorkel outlet to ensure clean combustion air through connection with external air aspiration duct*
 - *The new heat exchanger combined with the new high-performance fans allow for heat output of 92 / 93%*
 - *Before heating and after cooling of combustion chamber*
 - *Panel with reinforcement cross pleats to ensure superior rigidity and strenght (SP 110-235)*
 - *Thermostat: FAN for fan control; LIMIT: for burner control; OVERHEATING: safety thermostat in case of overheating, with manual reset*
 - *Bearing structure with removable panels for internal washing, even on hanging machines*
 - *All installation inserts and screws are exclusively metric, not self-tapping*
 - *Ventilator (IP 55):*
 - *very low noise fan (noise level ≤ 69 db at 2 meters)*
 - *high output, high performance fan guarantees increased air flow and static pressure (500 Pa) for uniform and long distance diffusion of warm air through channels or ducts*
 - *fan anchorage on machine's bearing structure through sturdy rods*
 - *adjustable fresh air re-uptake shutter (SP 110-235);*
 - *Control rear electrical panel (IP 65):*
 - *can be connected to thermostat/humidostat/timer*
 - *Integrated in the bottom side*

Quadro elettrico - electrical panel

Legenda

- 1 Spia bruciatore
- 2 Spia surriscaldamento motore
- 3 Spia surriscaldamento termostati (overheating limit)
- 4 Spia alimentazione elettrica
- 5 Interruttore 4 posizioni:
O= STOP
V= VENTILAZIONE (ARIA FRESCA)
H= RISCALDAMENTO
H+V= RISCALDAMENTO CON VENTILAZIONE CONTINUA
- 6 Presa termostato ambiente/umidostato/timer

Legend

- 1 Burner power indicator light
- 2 Motor overheat indicator light
- 3 Thermostat overheat indicator light (overheating)
- 4 Electric power indicator light
- 5 Switch 4 positions:
O= STOP
V= VENTILATION (FRESH AIR)
H= HEATING
H+V= HEATING WITH CONTINUOUS VENTILATION
- 6 Socket for thermostat ambient/humidistat/timer
