

TFSR 160 SILEO GREY

Item no. 92014

Version: 50 Hz

Document type: **Product card**
 Document date: **2019-06-05**
 Generated by: **Systemair Online Catalogue**

Description

- Swing-out
- Speed-controllable
- Easy to install
- Reliable

The TFSR range consists of roof fans with circular connection and are fitted with a single-inlet centrifugal fan with backward-curved blades and external rotor motors. The motors can be tilted outwards to facilitate inspection and service. They have integral on/off switch and are supplied with 1 m cable for fast connection to the mains e.g. via the connection box on the roof curb TOB or TOS.

These fans are suitable for exhaust-air ventilation systems, e.g. single and multiple dwellings, offices and day nurseries. To protect the motors from overheating, all motors have an integral thermal contact with automatic reset. The fans are manufactured in powder-coated, galvanized sheet steel and are delivered in the standard colours of black or brick red.

TFSR is delivered with a spigot connection if the installation requires direct duct connection. TFSR 125-160 are delivered with a Ø 160 spigot and TFSR 200-315 with a Ø 200. The spigot is not pre-assembled to the fan.

Technical parameters

Nominal data		
Voltage	230	V
Frequency	50	Hz
Phase	1	~
Input power (P1)	50,4	W
Current	0,221	A
Max. airflow	0,12	m³/s
R.p.m.	2393	r.p.m.
Capacitor	1,5	µF
Weight	3,3	kg
Temperature data		
Max. temperature of transported air	70	°C
Max. temperature of transported air when speed-controlled	70	°C
Sound data		
Sound pressure level at 4 m	40,9	dB(A)
Sound pressure level at 10 m	32,9	dB(A)

Protection / Classification	
Insulation class	B
Enclosure class, motor	IP44
ErP	
ErP ready	ErP 2018
Energy class, basic unit	E
Energy class, basic unit option	B

Energy class label

Energy class, basic unit

Energy class, unit with local demand control
